

The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

Part – A

I. Details of the Institution

1.1 Name of the Institution	Madhab Choudhury College
1.2 Address Line 1	Barpeta, P.O.&Dist. Barpeta
Address Line 2	Assam
City/Town	Barpeta
State	Assam
Pin Code	781301
Institution e-mail address	mccbarpeta@rediffmail.com
Contact Nos.	9435025562
Name of the Head of the Institution:	Dr. Prakash Sarma
Tel. No. with STD Code:	03665-252222

Mobile:

9435025562

Name of the IQAC Co-ordinator:

Dr. Birinchi Kumar Das

Mobile:

9435321090

IQAC e-mail address:

iqacmccbpt@gmail.com

1.3 **NAAC Track ID** (For ex. MHCOGN 18879)___ASCOGN10555_____

2.12 Has IQAC received any funding from UGC during the year? Yes No

If yes, mention the amount

2.13 Seminars and Conferences (only quality related)

(i) No. of Seminars/Conferences/ Workshops/Symposia organized by the IQAC

Total Nos. International National State Institution Level

(ii) Themes

2.14 Significant Activities and contributions made by IQAC

Taking students' feedback, processing teaching plans, providing suggestions to the college authority on the basis of students' feedback, encouraging research works and publications by faculty members, taking feedback from teachers on various issues from time to time..

2.15 Plan of Action by IQAC/Outcome

The plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year *

Plan of Action	Achievements
Taking Students' Feedback, processing Teaching Plan, encouraging research, publications and departmental seminars/workshops, offering suggestions to the college authority regarding academic and other developmental issues of the college, taking feedbacks from teachers on various issues.	Feedbacks were taken from the students of the final year, on the basis of which the college authority could take necessary measures for future. The college authority was helped in obtaining teaching plan from teachers in the beginning of the session. Several faculty members went for research and publications, and some small seminars were organized by various departments. Feedbacks from teachers were sought on various issues of the college. The IQAC also kept on monitoring the overall process of academic and other developments of the college.

* Attach the Academic Calendar of the year as Annexure.

2.15 Whether the AQAR was placed in statutory body Yes No

Management State Any body

Provide the details of the action taken

Part – B

Criterion – I

I. Curricular Aspects

1.1 Details about Academic Programmes

Level of the Programme	Number of existing Programmes	Number of programmes added during the year	Number of self-financing programmes	Number of value added / Career Oriented programmes
PhD	0	0	0	0
PG	0	0	0	0
UG	3	0	0	0
PG Diploma	1	0	0	0
Advanced Diploma	0	0	0	0

5.11 Student organised / initiatives Nil

Fairs : State/ University level National level International level

Exhibition: State/ University level National level International level

5.12 No. of social initiatives undertaken by the students

5.13 Major grievances of students (if any) redressed: No major grievances were reported by students during this period.

Criterion – VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

The college has the vision of keeping pace with time and serve the society by delivering a morally rich and able generation it is badly in need of. So, its mission is to put greater emphasis on introducing more programmes of contemporary relevance side by side with its traditional academic programmes.

6.2 Does the Institution has a management Information System

No

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

The college tried to get feedback from teachers as regards the curriculum so that it could intimate to the University any measures suggested by the teachers in so far as the development of the curriculum is concerned.

6.3.2 Teaching and Learning

The college introduced field studies and surveys outside curriculum and also remedial courses for disadvantaged students.

6.3.3 Examination and Evaluation

The college followed the rules and regulations of Gauhati University in conducting the Final examinations and the Sessional examinations as well as evaluating the answer scripts. But in case of conducting the examinations the college followed its own system, so that they could be conducted in a fair and smooth manner. The departments from time to time organized some periodical tests to know about the progress of the students. For the same purpose, the college arranged unit tests among students.

6.3.4 Research and Development

The college had a Research Committee to encourage and help the faculty members in undertaking research activities.

6.3.5 Library, ICT and physical infrastructure / instrumentation

Many new text books and reference books were newly purchased to widen the facilities of the library. To add to the physical infrastructure of the college, three Voltas water coolers, one photo copier and two bio-matrix punching machines were purchased.

6.3.6 Human Resource Management

The college followed the process of Human Resource Management according to the opportunities provided to it by the University curriculum.

6.3.7 Faculty and Staff recruitment

In this college, the faculty and staff recruitment is done according to the UGC and the Assam Govt. Rules and Regulations, as well as guidelines. In case of the recruitment of the temporary faculty and staff members too, the same process is adopted.

6.3.8 Industry Interaction / Collaboration

There was no industry interaction/collaboration during the year.

6.3.9 Admission of Students

The college gave admissions to students in various programmes according to the merit. While it followed the Govt. Rules and Regulations as regards reservation of seats for SC, ST, OBC and physically handicapped candidates, selection of candidates for such seats were also done according to merit. A few seats were reserved for candidates showing excellence in sports and cultural activities as well as the NCC A and B certificate holders, and merit was the basis of selecting candidates for such reserved seats too.

6.4 Welfare schemes for

Teaching	
Non teaching	
Students	12800.00(Students' Aid Fund)

6.5 Total corpus fund generated

49,42,420.00

6.6 Whether annual financial audit has been done Yes No

6.7 Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	External		Internal	
	Yes/No	Agency	Yes/No	Authority
Academic	No	No	No	No
Administrative	No	No	No	No

6.8 Does the University/ Autonomous College declare results within 30 days? Not applicable

For UG Programmes Yes No

For PG Programmes Yes No

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

Not applicable

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

Not applicable

6.11 Activities and support from the Alumni Association

The Alumni Association offered suggestions to the college authority on various matters of the college.

6.12 Activities and support from the Parent – Teacher Association

The Parent-Teacher Association offered suggestions to the college authority on various matters of the college.

6.13 Development programmes for support staff

Internal training programmes were arranged for development of support staff.

6.14 Initiatives taken by the institution to make the campus eco-friendly

Plantation and disposal of wastes were given priority by the college to make its campus eco-friendly.

Criterion – VII

7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

The college introduced remedial courses for the disadvantaged students, which helped them to understand the subjects learnt properly. Also various field studies and surveys were conducted outside and inside curriculum. This helped the students in broadening the horizon of their knowledge by enabling them to interact with the society directly, side by side with strengthening team spirit and inculcating a sense of social responsibility in them.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

1. Construction of a new Seminar Hall was in progress.
2. The college introduced one year Diploma course on Agro-technology.
3. During this year, three National Seminars were organized by three departments.
4. A bio-matrix punching machine was installed for recording the arrival and the exit of the teaching and the non-teaching staff. Three Voltas water coolers were installed to provide the students with pure and cool drinking water.
5. The Alumni Association of the college was re-organized to make it play more active role in the college matters.

7.3 Give two Best Practices of the institution (*please see the format in the NAAC Self-study Manuals*)

1. Transparent Admission Policy
2. Field Study

**Provide the details in annexure (annexure need to be numbered as i, ii,iii)*

7.4 Contribution to environmental awareness / protection

The college organized programmes to create awareness about environment among students.

7.5 Whether environmental audit was conducted? Yes No

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

The college underwent an effective SWOT Analysis with an aim to widen the area of its achievement.

8.Plans of institution for next year

1. For the next year, the college plans to introduce certificate courses such as Geographical Information System, Remote Sensing and Geographical Positioning System.
2. The college also plans to re-organize the Parent-Teacher Association of the college to make it play a more vital role in college matters.
3. The college proposes to celebrate Platinum Jubilee in 2014.

ANALYSIS OF THE STUDENTS' FEEDBACK

YEAR 2012-13

Answering question as regards whether their course was applicable/relevant to the real life situations, 65% of the participants answered in the affirmative. 62% of the students had affirmative opinion about whether the course helped in increasing skill, concept, knowledge, analytical abilities. 30% of students regarded their syllabus easy, while 55% found it manageable. 15% students found the syllabus difficult. 62% of the students found the extent of effort required by the students to understand the course satisfactory.

About the availability of books, journals etc. relating to their course in the library, 48% opined that it was excellent, 51% found it adequate and 1% called it inadequate. About the computer and internet facilities of the college: Very good --40%, Good -- 40%, Average -- 20%. Hostel facilities of the college : Very good -- 40%, Good – 50%, Average -- 10%. Sports facilities of the college : Very good – 24%, Good --30%, Average -- 34%, Poor – 12%

Among the courses, 55% regarded Education as the most useful, while 5% regarded Chemistry, 5% regarded Physics, 15% regarded English and 20% regarded Economics as the most useful, as they were expected to help in their further study and career, having ample career opportunities.

97% of the students said they got proper response from their departments as per expectations. 90% felt that their teachers had adequate communication skills. 82% said that the teachers also had the ability to generate interests in students. 98% said that 90-100% of the syllabus was taught in the class, while 2% said that 75-90% of the syllabus was taught. 80% said the teachers encouraged students' participation in the class. 73% felt that the teachers were very helpful in advising students, and 27% felt they were sometimes helpful.. 40% of students said that the teachers provided feedback on their performances regularly, 60% said it was done irregularly. 99% of the students believed that the internal assessment done by teachers was fair. 99% of the students said that their interaction with the teachers was useful. 78% found their interaction with the college administration useful, while 22% found it otherwise.

About the social atmosphere (a) at the institution, 87% found it satisfactory, (b) in their department, 94% found satisfactory.

All the students commented on their individual teachers highly.

ANNEXURE -- 3

Practice I

1. **Title of the Practice**

TRANSPARENT ADMISSION POLICY

2. **Goal**

Every year the college receives a lot of applications from candidates who seek admission to various programmes that the college runs. It is not always possible for the college to accept each and every candidate who seeks admission to the college, because in most of the cases the number of applicants is much higher than the number of seats available. So, there comes the need of selection of candidates for various programmes. That is why, the college has been following a clearly defined admission policy and maintaining transparency in this regard, so that there cannot be any dispute regarding admission and the best candidates can be accommodated.

3. **The Context**

In adopting an admission policy, the college has to keep in mind these things: (a) In most cases, the number of candidates seeking admission to various programmes is much higher than the number of seats available in that programme. (b) The college is situated at a locality, where diverse communities and groups of people reside, and the candidates who apply for seats in this college represent this diversity. (c) A large number of candidates come from economically backward class. (d) Most of the candidates belong to the locality where the college is situated, and therefore, there is a constant pressure of the local people on the college matters. (e) The main objective of the college is to encourage quality education, and the college does not want to make any compromise in this regard. Keeping all these things in view, the college has been following a transparent admission policy for so many years.

4. **The Practice**

The admission policy of the college is clearly stated in the prospectus. Merit is the only basis of admission in this college. Of course, there are reservations of seats for Scheduled Castes, Scheduled Tribes (Hill), Scheduled Tribes (Plain) and Other Backward Castes as per the State Policy and constitutional provisions. Certain seats are also reserved for Physically Handicapped candidates as per the Govt. rules and regulations. Besides all these, the college, of its own, reserves a few seats for candidates showing excellence in sports and cultural activities (State/National level) and also for candidates having 'A' and 'B' certificates of N.C.C. Even in the reserved categories mentioned above, merit is the benchmark for selection of students. The college has the provision to give fee relaxation to meritorious

students belonging to economically backward classes from the Students' Aid Fund. All these provisions are mentioned in the prospectus published annually in clear terms. The college authority constitutes an Admission Committee consisting of teachers, and this committee conducts the entire admission process. Before the admission, the Admission Committee declares the list of selected candidates in order of merit, category wise, citing the marks they secure in the qualifying examinations. The Committee also declares a waiting list in order of merit, in which the marks secured by the candidates in the qualifying examinations are mentioned properly. Thus, the whole process of admission is made public.

5. Evidence of Success

The transparency maintained in the Admission Policy has brought about tremendous success in respect of achieving the desired goal. Firstly, the college has been getting good students because of the transparency in the admission process. Secondly, the college has been able to avoid all kinds of controversies and disputes as regards admission. Thirdly, the college has been able to avoid all kinds of pressure in the matters of admission. Most importantly, this transparency in matters of admission has been appreciated highly by the students, the parents, and the society as a whole.

6. Problems Encountered and Resources Required

The major problems encountered in adopting a clearly defined, transparent admission policy in this college are these: (a) As the number of candidates seeking admission is too high, particularly in the B.A. level, the college has to face tremendous pressure to accommodate more students than it can. (b) In the Higher Secondary (Arts) level, a large number of students pass out every year from this college, and they expect admission to Degree level in this college again. They become a source of pressure for the college. To increase number of seats, particularly in the B.A. level, there is the need of more classrooms and more teachers.

7. Notes (Optional)

Whatever the pressures may be on the college in connection with the admission process, the college has never compromised in respect of quality, and therefore, the college has never done away with its stated policy as regards admission. Of course, in the last four years, the number of seats in the B.A. class has been increased from 320 to 350, and in the year 2013, even the evening shift was introduced in the B. A. level. But still the demand is mounting, and despite that, the college is determined to go with its transparent admission policy.

Practice II

1. Title of the Practice

FIELD STUDY

2. Goal

The main aim of this practice is to introduce the students to the practical aspects of the subjects taught. This helps the students to acquaint themselves with the objective world around them instead of keeping themselves confined with the information stored in the books. At the same time, it helps them to connect their knowledge gathered through study of textbooks to the actual things. Though field study is not at all possible in all the subjects, it has a great importance in certain subjects like environmental studies, anthropology, botany, zoology, history, geography, Assamese, economics etc. The main goal of the field study is to give the students the opportunity of the first hand knowledge.

3. The Context

The practice of field study has several important features to address to. Firstly, at our college, the number of students is quite high so far as arrangement of field study is concerned, and it is not at all possible to give the same students opportunity of field study in more than one subject. Subject-wise speaking, in some subjects the number of students is high again, and it becomes difficult to arrange field study accommodating all the students of that subjects. Thirdly, fund is a major concern for the field study. Till now, the field studies are being arranged with the fees from the students. But the money collected from the students is not at all sufficient for organizing a proper kind of field study. Fourthly, the field studies are carried out in many subjects according to the curricula designed by the University, and there is not much scope for any innovation in this regard. But in some subjects, the concerned departments have initiated field study outside the University syllabus, and in this respect, the concerned departments have designed their own frameworks for such out-of-curricula field studies, and are implementing them according to their own conveniences.

4. The Practice

In many subjects, educational tours or field studies are parts of the syllabi. In these subjects, field studies are organized according to the courses designed by the University. As Environmental Studies is a compulsory subject in the science and the arts stream, the number of students who are to be taken for field study becomes quite large and it becomes difficult for all the students to get desired benefit from the field study in this subject. In some other subjects, the number of students is not beyond control, as they are not compulsory subjects. The students are taken to selected places, where they can get the opportunity to get first hand information about the things they learn in their books.

The field studies in subjects like Assamese, Economics, History are quite an innovative idea, because in Assamese only in the fourth semester of the Major course there is the provision for field study, while field study is organized for the first semester students too. In the subjects History and Economics too, particularly major students are taken to field study and survey works not covered in the syllabi of these subjects.

In case of the University-determined, syllabi-directed field the students are taken to some nearby or distant places, as the case may be, according to its importance in respect of the course. It may be a day-long programme (particularly in case of Environmental Studies) or a longer programme, according to the necessity. In case of the field study of Assamese, the department takes students of major course to certain places, where the students can get acquainted with the ancient scripts preserved. For example, the ancient scripts carved on stones found in North Guwahati and also in the State Museum in Guwahati give the students an opportunity to take interest in the study of ancient scripts. In case of history, the students are taken to some place of historical interest, and made them study the historical importance of that place. In Economics, students are taken to places, where they can study the economically relevant issues in the lives of the people there. After the field studies the students have to prepare individual reports on the study, and it helps the students to acquire knowledge about systematic studies.

5. Evidence of Success

The field studies have helped the students to a great extent. It has encouraged them to go deeper into the subject. It has also opened up before them some areas of study, which don't have much scope for exploration in the syllabi of the concerned subjects. Field studies have brought knowledge of the students outside the pages of their books, and helped them to have a wider perspective of the subjects. For example, the students of Assamese in major course have to study about ancient scripts. It is because of their exposure to the real ancient scripts engraved on stone in the ancient time, they have got wider ideas about ancient scripts. The reports that

the students have submitted after the field studies have shown that there has been a positive impact of the field studies on the students.

6. Problems Encountered and Resources Required

The main problem in organizing field studies is the number of students. Though the syllabi of Gauhati University have made provisions for field study in some particular subjects only, there should have been provisions for field study for all the undergraduate students, if not as a part of the curricula, then as a part of the co-curricular activities. The college thinks that it would have helped the students in widening the horizon of their knowledge and perception. But with a number of students nearing 1300, it is difficult to organize field studies for all the students on the college's own accord. The second problem is finance. The college has to depend on the fees collected from the students to organize a field study. But the fund generated through the fees of the students is not sufficient to have a field study in proper sense.

7. Notes (Optional)

The college believes in giving the students wider opportunities for learning, and learning cannot be confined only to the class rooms. That is the reason why there is so much emphasis on field study. It is also expected that the field studies will help establishing a close connection between the students and the society.
